Update price and tons of sorghum hay in the western area.

Compared to two weeks ago reported hay sales sold steady. Demand was light to instance moderate. Quite a lot of hay around in various places in the state. Best demand has been for small square bales in the western part of the state and for sun-cured alfalfa pellets in the east. Dairy operations continue to look for hay testing at 180 RFV or above but that has been hard to come by this year. Plus, dairies do not want to pay a lot on freight if they can help it. Mostly open winter so far in the state and cows can continue to graze winter feed sources and have not been needing any supplementation. Merry Christmas and Happy New Year!
